

With *love*, you have been selected to receive this gift of truth.

Your family [like mine] has presumably been deceived for **generations**. As a result, you need to learn about what has been recorded. Court claims have been made for all Americans for the last 6 generations [the international presumption was that Americans have been missing for 150 years]. Are you a corporation or a living man/woman?

A record of sending this truth to you has been recorded at <https://passover2.org/guestbook>

Add your name to the guestbook. Write your name in this book. Send this to two more victims. **Don't break the chain of truth!** We are guaranteed the rights to speak and assemble. In days we can free the world of longstanding scarcity [the lie], return to "living" political status, eliminate the caste system, and begin to treat **all living women and men as equals** if we will just tell 2 friends.

We were made foreigners [fictions] on our own land by presumption of foreign war powers by our government contractors. This may lead you to make bad decisions without **disclosure**.

Here is an alternative online book for easier reading at <https://tinyurl.com/us-defrauded>.

If you do nothing, the "record" will **presume you under the Roman [contract] law of deceit**. You may lose much including **victim compensation that is waiting for you** and your family to claim in love at <https://Global528.com>.

The **foreign** incorporated service organizations [Constitution(s)] have usurped land jurisdiction by breach of trust and fraudulent claims of war since 1861. **You cannot serve the truth and the fraud**. Americans are at peace and fly the American civil peace flag.

Your foreign vessel is under false flag by fraudulent presumption of war [law]. Fraud is dissolved from the beginning by the truth in law, now in bankruptcy court. **The bankruptcy will continue with or without you**. If you do not make claim, **i make claim to your land** as you are presumed a British Roman, Roman, or Brit by contacts you have signed all your life. Return to your State and truth! All legal fictions as "persons" have no treaty to own land [law of kinds]. You must be on the record as "living" to be equal. Continue as a fictional corporation [lie] or choose freedom and truth [**tough love but necessary**].
